ANNEX C7

INTERCONNECTION LINKS

Index

INDEX.....	2
1 GENERAL.....	3
2 CHARGES FOR INTERCONNECTION LINKS.....	4

1 General

- 1.1 This Sub-Annex defines the means of sharing the costs for Interconnection Links.
- 1.2 The charges applied by Omantel, in relation to the establishment of the Interconnection Links supplied by Omantel, are set out in Sub-Annex C8 using Leased Lines to calculate the cost for Interconnection Links.
- 1.3 Interconnection Links are to carry traffic in both directions ("bi-directional")

2 Charges for Interconnection Links

- 2.1 Where traffic is only conveyed from the Operator to Omantel, the Operator shall pay the rental and connection charge for the link in full.
- 2.2 If traffic is conveyed in both directions over an Interconnection Link or group of Interconnection Links between the parties, the Operator shall pay the rental and connection charge for 2Mbit/s Interconnection Links in accordance with the following formula:

For each 2Mbit/s Interconnection Link

$$R_p = R_t \times C_o / C_t$$

Where:

R_p is the rental/one-off fee payable

R_t is the sum of each 2Mbit/s Interconnection Link rental/one-off fee calculated from the relevant charges specified in this Interconnection Agreement and, taken from the relevant Interconnection Usage Reports of the first three months of the period of four months preceding the due rental date:

C_o is the total Call minutes for Calls conveyed from the Operator to Omantel

C_t is the total Call minutes between the Parties.

-
- 2.3 For the first bill the charges, including the connection charge for the Interconnection Link shall be invoiced on the basis of a 50/50 split of traffic. Following the submission of the first bill for Interconnection links the calculation shall be applied to the preceding period, and any over or under payment by Operator shall be rectified by adjustment of the next invoice for 2Mbit/s Interconnection Links.
 - 2.4 Connection and rental charges shall be due from commencement date of the service.
 - 2.5 Rental and connection charges shall be payable 12 calendar days from the date of issue of the invoice.
 - 2.6 Links carrying traffic from Omantel to the Operator which terminate in the Operator's Network shall be paid by Omantel. Connection charges for such circuits shall be agreed between the parties.
 - 2.7 Links carrying traffic solely from the Operator's network which terminate in the Omantel Network or which Omantel passes to a third party, including calls, which terminate outside of Oman, shall be paid for by the Operator.
 - 2.8 Links provided by the Operator through collocation to be charged according to the provisions in Sub-Annex C3.
